

## JLG Forklift Part

JLG Forklift Part - In the late 1960's John L. Grove, with his wife Cora started out on a cross country voyage in their RV. Newly retired, after spending numerous years working with his brother to manufacture their crane business into an industry leader, John had no idea that important trip would permit JLG Industries, Inc to emerge. The world leader of mobile aerial work platforms and precision material handling equipment was the end consequence of a road trip.

During their trip, John reacquainted himself with past business connections along the way. In combination with these conversations and a noteworthy event; two workers were unfortunately electrocuted on scaffolding when the Groves were passing through the Hoover Dam. John discovered an infinite marketplace for a product that could swiftly and safely elevate people in the air to accomplish upkeep and other construction services.

After returning from their holiday, John set up a joint venture with two of his friends and bought a metal fabrication company in McConnellsburg, Pennsylvania. Starting with a small crew of twenty employees, they produced and sold their first JLG aerial work platform in 1970. The business incorporates many of the basic design essentials of that original lift into current versions.

Since then, JLG Forklifts have come a long way from when Mr. John L. Grove came back from his fatefull cross-country trip and since the first JLG aerial platform entered the market. As of today, the business has expanded itself into many different global markets and continues to develop innovative machinery to ensure that consumers are able to become safer and more well-organized within their workplace.
